Poppy Appeal 2022 Summary of Donations

I am pleased to write to you with your summary of donations for the Poppy Appeal 2022. I would like to thank you and your volunteers once again for collecting, counting and banking the funds raised in your district and for returning your Statement of Account form.

We have now reconciled and audited the donations you have banked along with any contactless income and donations raised by you and your volunteers and banked by our supermarket partners.

I am delighted to announce that the total raised for the Poppy Appeal 2022 across England, Wales and Northern Ireland is £47,701,210.81, of which £7,683.00 was raised from the Poppy Appeal collections you organised.

Collectively, we bring our nations, communities, and individuals together to create better futures for our Armed Forces communities and their families. For some, service comes at great cost. Whatever issues people face, such as the current cost of living crisis, we can help.

None of this would be possible without the generous help of our Poppy Appeal team of dedicated volunteers and the generosity of our public supporters. On behalf of the Armed Forces community, thank you.

Yours sincerely,

Claire Hall
Interim Head of Poppy Appeal
