

## National Membership Awards 2025

01/10/2025

Dear Fellow Member

I am delighted to once again be writing to you to invite your nominations for the National Membership Awards.

This is my last year as Chair of the National Membership Awards Committee, and I would like to sincerely thank everybody who has submitted nominations over the past few years. We received some tremendous applications last year – it was heartwarming for the committee to read about the hard work and contribution of our clubs, branches, counties / districts and members. Please keep doing all that you do.

At Annual Conference 2025 we awarded the Sir Clive Johnstone Award for the first time. This was a special moment for all of us who worked with or knew our late National President and we're pleased to be opening applications for this award once again.

If you submitted an award nomination last year and weren't successful – please do not be discouraged from nominating this year, we received so many worthy nominations. For those who believe it's not worth entering – I encourage you to not be disheartened. We judge all nominees equally and are always keen to hear about unsung heroes out in their local communities.

Please do begin considering your nominations for Annual Conference 2026. We've changed the nomination word limit this year, but we continue to encourage you to send supporting attachments including pictures and newspaper cuttings – they are a pleasure to review.

All nominations should be submitted to [membershipservices@britishlegion.org.uk](mailto:membershipservices@britishlegion.org.uk) by the deadline of **5pm 13 February** using the application form [available on MAP](#) or from your Membership Engagement Officer. Nominees can be put forward for more than one award as long as they meet the criteria.

Thank you for your support in recognising the hard work and our formations and fellow members.

With kind regards,

**Micheal Challinor**

Michael R Challinor  
Chair of National Membership Awards Committee  
Membership Council Representative
